## Press and Sewing Frame sizes

All our presses and sewing frames are made in solid beech. We will supply other hardwoods as special orders. We make our equipment to any size or design. The presses can open to 180mm daylight.

**Small Lying Press** (no bevel) - length: 600mm  
Cheek size: 48mm thick x 80mm deep  
Distance between screws: 480mm

**Large Lying Press** (no bevel) - length: 640mm  
Cheek size: 70mm thick x 150mm deep  
Distance between screws: 480mm

**Small Finishing/Lying Press** - length: 600mm  
Cheek size: 48mm thick x 80mm deep  
Distance between screws: 480mm

**Med. Finishing/Lying Press** - length: 600mm  
Cheek size: 48mm thick x 120mm deep  
Distance between screws: 480mm

**Large Finishing/Lying Press** - length: 640mm  
Cheek size: 70mm thick x 150mm deep  
Distance between screws: 480mm

**Tall Hand Press** - length: 450mm  
Cheek size: 35mm thick x 175mm high  
Distance between screws: 298mm

Our frames are traditionally made with threaded pillars and round threaded nuts in solid beech.

**Large Sewing Frame** - depth: 270mm  
Distance between pillars: 470mm  
Width: 650mm      Height: 420mm

**Small Sewing Frame** - depth: 270mm  
Distance between pillars: 335mm  
Width: 515mm      Height: 420mm

**Backing Boards**  
Thickness: 20mm to 13.5mm Length: 125mm
